B2		P/N 595160 16-18	Gear skid plate	
B3		P/N 595054 16-18	Rear differential protector	

▲ Professional Quality Products

Asfir's variety of products is the perfect solution for accessorizing the off-road vehicle.

Quality Skid Plates

Quality skid plates for off road vehicles have one of the highest design, performance and finish standards in the world. Asfir offers various skid plates protecting the underbody parts of the vehicle such as front, gear, transfer and fuel tank. The skid plates are made of quality aluminum and are screwed to original holes in the vehicle. Service openings in the skid plates enable servicing the vehicle without dismantling the plates.

Side steps/protectors

Protect the lower side of the vehicle and aid recovery with a jack. Designed by Asfir's Research & Development team and manufactured using the most up-to-date technology. The side protectors are made of quality metal and can be combined with aluminum side steps.

ATL Winch Bumper

The innovative ATL winch bumper is designed and developed to replace the original bumper. The bumper covers the winch but is not attached to it. It has many openings to ventilate the vehicle and enables easy access to the winch for maintenance. ATL bumpers are characterized in low weight and in keeping close proximity to the vehicle's original contour lines.

Rear bumpers and tow bars

A quality tow bar mounted to the vehicle's chassis under the original bumper.

ASFIR was founded in 1986.

The company manufactures a vast range of vehicle accessories and specializes in vehicle modeling.

The product range includes front bumpers, side steps, rear tow bars, rear bumpers and aluminum skid plates, which protect the under parts of the vehicle such as engine, fuel tank, gearbox & transfer case.

The company's plant, based in the north of Israel, is equipped with the latest machinery and highly advanced

technology, including specially constructed dedicated machines, which enable the company's development team to design and produce a considerable variety of products.

We equip vehicles for the military, Police troops, Swat units, Border Patrol, Special Forces.

ASFIR operates under the close supervision of the Israeli Standard Institute, the Ministry of Transportation and TUV Germany. The company is ISO 9001:2008 qualified.
